

# Artemis Overview

Subject: Science

Grade Level: 9-12

## Learning Outcomes:

Knowledge of

- NASA Artemis missions
- The importance of Artemis missions
- NASA STEM opportunities and careers

## Learning Material:

What is NASA's Artemis Mission? Why is it important?

[NASA's \\$39BN Plan to Return to the Moon](#)

## Evaluation:

Questions for Discussion:

- Do you think establishing a permanent settlement on the moon is feasible? Why or why not?
- How could creating a settlement on the moon be beneficial to people on Earth?
- Could understanding more about the moon unlock some of the mysteries of our planet? Why or why not?
- In what ways could a moon settlement pave the way for establishing a settlement on Mars?
